

Please do not allow the continuation of consolidation in radio stations. Clear Channel owns enough. I cannot listen to any radio station in Chicago without hearing the same songs continually. If it was not for the internet, friends and college radio I would not be able to hear music that flies below the radar. Not everybody wants to listen to the music that is being played. Also, is it necessary for clear channel to own concert venues. Also, is it ok for clear channel to promote pro-war rallies without lending a hand to the opposite side. We cannot hear opposition to anything. I fully support our troops in iraq and overseas, however, any form censorship under the guise of sensitivity is disgusting. Please do not allow major corporations to buy into more bigger markets. This country needs diversity not unanimity.
